

The Power to Protect

Your Identity

Identity Theft Recovery Package

Privacy Solutions' Protection Services

According to the ID Theft Resource Center Inspection Service, identity theft victims average 300 hours of activity in attempts to clear their names.

Welcome to Privacy Solutions's identity theft recovery package.

Identity theft is considered one of the fastest growing crimes in America. In 2003, these crimes produced an estimated 9.9 million victims nationwide with losses of almost \$53 billion. With the introduction of our comprehensive identity theft package, you have the ability to restore your identity more easily and more completely than ever before. Privacy Solutions' Protection Services gives you the power to protect your identity and your future.

Victims of identity theft have reported that clearing their names and reclaiming their identities can take an average of 44 months according to the United States Postal Inspection Service.

Preserve your identity with Privacy Solutions.

Identity theft is defined as a crime in which someone wrongfully obtains and uses another's personal data for fraud, deception and typically, economic gain. As this problem reaches critical levels, we've made identity protection a key component of Privacy Solutions. Our identity theft recovery package provides the information, strategies and assistance necessary to maintain control of your identity.

Regain and restore your privacy with our comprehensive recovery package.

Should you become a victim of identity theft, Privacy Solutions' Protection Services provides education and recovery assistance materials including:

Insurance - A \$25K Theft Insurance Policy from American International Group, Inc. (AIG) which includes an ID Theft Recovery Kit complete with pre-written correspondence for creditors and bureaus to save you time.

Restoration - A step-by-step manual detailing the resolution process and guidance for avoiding future complications. You may also choose the option of a unique Identity Restoration Service, through AIG, that will take over the identity recovery process. We give consumers the option to manage this process themselves or to have us do it for them with their assistance—further minimizing the hassle involved. This time consuming process typically requires the assistance and expense of an attorney. By assuming and reorganizing the recovery process on your behalf, Privacy Solutions can save you time, money as well as the hassle and headaches associated with clearing and restoring your identity.

Victim Assistance - A toll-free, victim assistance number providing access to trained specialists for:

- Support in notifying credit bureaus, creditors, financial institutions, law enforcement officers, utility providers and merchants
- Information collection regarding misuse of your accounts when appropriate
- Creation and maintenance of a case file documenting fraudulent activity

Privacy Solutions will give you expertise, assistance and—most importantly—control of your identity.

Identity theft goes well beyond an invasion of privacy. It can burden you with lasting credit problems and legal fees that may take years to resolve. Our identity theft recovery package puts you in control of your identity. By guiding you through identity recovery, we will help you regain your privacy while minimizing risk and loss.

At Privacy Solutions, privacy protection is our business—empowering customers is our priority. Making safer decisions begins with Privacy Solutions. We look forward to serving you.

Most victims do not learn about the theft of their identity until tvtmonths after it has occurred.
